

INSTRUCTIONS FOR CAR WASH

- If you sign up for the morning shift, you will need to meet at the band room to pick up all of the supplies and take them to your locations
- Please check roll on the roster included on your clipboard. Place an X by the students who are present.
- Make sure that students who are holding the car wash signs stay on your side of the highway. Also ensure that they don't get too close to traffic...safety is our #1 concern!
- Once you get your site set-up, you may begin.
- Please have one adult at your site gather the "Documentation Information" as each car enters the site (*Make/Model/Tag #/Customer Signature*). You'll find these forms on the clipboard. This is how we verify the number of cars that we wash!!!
- Donations are accepted, but not expected. Please place all donations in the envelope located on your clipboard.
- Please check each car to make sure that our students have done a good job of washing it.
- We want for kids to have fun...but please try to make sure that they also complete the task at hand.
- Trade off with the kids holding the signs and the kids washing cars. There shouldn't be more than four kids at the road holding signs.
- We've told the kids, but please remind them that shirts stay on!!!
- Please keep an eye on the students to make sure that they are don't get overheated (use the water hoses!).
- At the end of the day, please pack up all items and return them back to the MHS Bandroom.
- If you need anything...please don't hesitate to contact me. Michael Schultz 850-525-9551.
